EXPERIENCE

La Parrilla Mexican Restaurant, Canton, GA | Server

08/2022-Present

Provide excellent guest service, take orders, and ensure satisfaction. Deliver food/drinks, process payments, and maintain strong menu knowledge and allergy awareness.

Las Palmas Mexican Restaurant, Canton, GA | Busser

05/2020-05/2022

Clear and sanitize tables, reset them for new guests. Supported servers with maintaining clean dining areas.

Las Palmas Mexican Restaurant, Canton, GA | Host

05/2018-05/2020

Welcome and seat guests, manage waitlist and reservations. Keep lobby organized and provided menus/silverware.

PROJECTS

Capstone Project | CRM Implementation Capstone Project | Georgia Laws of Life

- Led nonprofit process discovery by analyzing organizational workflows and translating requirements into a structured CRM system design.
- Evaluated and validated CRM platform capabilities by mapping real-world business requirements to system functionality.
- Configured and implemented a CRM system (Little Green Light), including data structuring, workflow setup, and system customization.

Network Traffic Analysis Project:

- Analyzed HTTP network traffic using Wireshark to identify IP addresses, protocols, and packet structures.
- Applied packet filtering techniques to isolate relevant traffic and detect potential anomalies.
- Gained hands-on experience in network monitoring and basic threat identification.

Website Development Project:

- Designed and developed responsive websites using HTML/CSS and basic JavaScript.
- Implemented user-friendly layouts for small business use, improving accessibility and usability
- Deployed websites and tested functionality across different devices and screen sizes
